Deck shuffled, ready to start!
Distributing the cards in the deck into 4 stacks.
Fourth card in first stack, after it has been turned over, is an ace. [[[\cdot]]]
[[::
Discarding the 3 cards before the ace.
Keeping the ace and the 4 cards after, turning them over.
[[::]]
]]]]]
Third card in second stack, after it has been turned over, is an ace.
           \boxed{]\ ]\ ]\ ]\ ]\ ]
                       ]]]]]]]]]
                                  ]]]]]]]]
           [[::
]]]]]
Adding to the cards that have been discarded the 2 cards before the ace.
Also keeping the ace and the 5 cards after, turning them over.
                       ]]]]]]]]
                                  ]]]]]]]]
[[[[
No ace in third stack, after it has been turned over.
                                  111111111
                       ]]]]]]]]]]
Adding to the cards that have been discarded all cards in the stack.
                                  ]]]]]]]
111111111111
Eighth (and last) card in fourth stack, after it has been turned over, is an ace.
                                  [[[[[
]]]]]]]]]]
Adding to the cards that have been discarded the 7 cards before the ace.
Also keeping the ace, turning it over.
11111111111111
Distributing the cards that have been kept into 3 stacks.
]]]]
           ]]]]
                       1111
```

First card in first stack, after it has been turned over, is an ace.

\$ python3 solitaire\_1.py

```
[[[
         ]]]]
                   1111
Keeping the ace and the 3 cards after, turning them over.
         ]]]]
                  ]]]]
]]]]
No ace in second stack, after it has been turned over.
         [[[
]]]]
Adding to the cards that have been discarded all cards in the stack.
First card in third stack, after it has been turned over, is an ace.
                   [[[
[[]]
]]]]
Also keeping the ace and the 3 cards after, turning them over.
]]]]]]]]
Distributing the cards that have been kept into 2 stacks.
First card in first stack, after it has been turned over, is an ace.
         ]]]]
[ [ [
Keeping the ace and the 3 cards after, turning them over.
         1111
[[]]
]]]]
Second card in second stack, after it has been turned over, is an ace.
         [[:
Adding to the cards that have been discarded the card before the ace.
Also keeping the ace and the 2 cards after, turning them over.
Displaying the 7 cards that have been kept.
You lost!
